TREATMENT OF INFORMATION FILED IN)	CASE NO.

ARRANGEMENT CONTRACT FOR JOHNSON &)	
HIGGINS OF KENTUCKY)	

O R D E R

This matter arising upon petition of BellSouth Telecommunications, Inc. d/b/a South Central Bell Telephone Company ("South Central Bell") filed March 16, 1993 pursuant to 807 KAR 5:001, Section 7, for confidential protection of the cost support data developed in connection with South Central Bell's Special Service Arrangement Contract for Johnson & Higgins of Kentucky on the grounds that disclosure of the information is likely to cause South Central Bell competitive injury, and it appearing to this Commission as follows:

South Central Bell has contracted with Johnson & Higgins of Kentucky for the provisioning of Direct Station Selection/Busy Lamp Field. This service is associated with its Digital ESSX Service. In support of its application, South Central Bell has provided cost data which it seeks to protect as confidential.

The information sought to be protected is not known outside of South Central Bell and is not disseminated within South Central Bell except to those employees who have a legitimate business need to know and act upon the information. South Central Bell seeks to

preserve the confidentiality of the information through all appropriate means, including the maintenance of appropriate security at its offices.

KRS 61.872(1) requires information filed with the Commission to be available for public inspection unless specifically exempted by statute. Exemptions from this requirement are provided in KRS 61.878(1). That section of the statute exempts 11 categories of information. One category exempted in subparagraph (c) of that section is commercial information confidentially disclosed to the Commission. To qualify for that exemption, it must be established that disclosure of the information is likely to cause substantial competitive harm to the party from whom the information was obtained. To satisfy this test, the party claiming confidentiality must demonstrate actual competition and a likelihood of substantial competitive injury if the information is disclosed. Competitive injury occurs when disclosure of the information gives competitors an unfair business advantage.

South Central Bell's competitors for ESSX service are providers of PBX equipment. PBX equipment provides the same features as those offered by South Central Bell's ESSX service. Disclosure of the cost information sought to be protected would allow providers of PBX equipment to determine South Central Bell's costs and contribution from the service, which would allow competitors to market their competing services to the detriment of South Central Bell. Therefore, disclosure of the information is

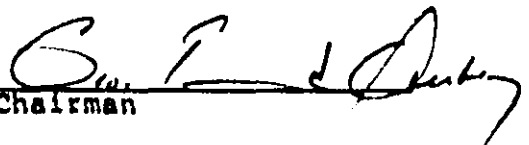

likely to cause South Central Bell competitive injury and the information should be protected as confidential.

This Commission being otherwise sufficiently advised,

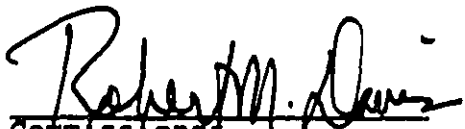

IT IS ORDERED that the cost support data developed by South Central Bell in connection with its Special Service Arrangement Contract for Johnson & Higgins of Kentucky, which South Central Bell has petitioned be withheld from public disclosure, shall be held and retained by this Commission as confidential and shall not be open for public inspection.

Done at Frankfort, Kentucky, this 15th day of April, 1993.
